

IHC Southland (Idea Services) needs your help...

We are looking for donations of bicycles (adults and children's), and bike parts, that can be used by our clients as part of our Recycling Bikes Project.

The Recycling Bikes Project is a skills development programme (being run in partnership with the Invercargill Environment Centre and the Bike Doctor). Its aim is to teach our clients how to repair and refurbish donated bikes.

Once restored, these bikes will then be donated back to the Southland community via charitable organisations, schools etc.

If you can help by donating a bike (we can come and collect), or would like further information, please contact either Jo or John at Idea Services, (03) 211 2980.

Enquiries are welcome, and donations of old bikes would be very gratefully received.
