

## Winter-Spring Road Racing Programme

This year we are racing in Divisions 1 – 5 and Junior Riders will be slotted into a Division according to ability. Because Junior Riders have restrictions on how far they can race, and because they can't ride in Senior Points Series Races, they will sometimes have their own races/variations of the senior race, with some of the Division 4 and 5 riders (Juniors & Seniors) starting from a different place / racing a shorter distance to ensure the racing is manageable for them. I am sure everyone will pitch in and help to make this season a good success!

Prior to the season starting, all riders will be placed on a leader's board. This will be ranked according to ability and pursuant to reports from our spies within bunches on how strong riders are (so not just on where they got at the end of the race!). The top group of 12 each week will be split off to make up A Grade. As riders from overseas come back, the top group will change around, but it means there is always a decent A Grade field and we are hopeful this will make fair, fun and equal racing – we will give it a try anyway!
